

TRACTOR MOUNTED AERATOR

AERATOR

**BROUWER
kesmac**

**GROW STRONGER AND HEALTHIER GRASS THAT
WILL MATURE FASTER AND ABSORB BETTER.**

The Brouwer Aerator is the latest tool to improve turf growth and mature sooner! Puncturing the surface to root level, the Brouwer Aerator allows water, air, fertilizer and chemicals to penetrate turf while maintaining the ability to harvest or use turf immediately. The heavy duty frame follows ground contours and has special spikes for golf courses, while a single lift cylinder makes it easy for transport.

They are available in 1/2 in., 3/4 in., or 1 in. thickness and has 6 in. hole spacing for aeration.

- 30-50 lbs per gang with optional additional weights
- Heavy duty frame with simple and durable design
- Custom depth control up to 2.5" working depth
- Allows water, air and fertilizer to penetrate turf
- Single lift cylinder for easy transport
- Only a mid-size tractor required
- Special spikes for golf courses
