

HAND STACK SOD HARVESTER

SH-1576

**BROUWER
kesmac**

**DESIGNED TO WITHSTAND THE STRESS OF HARD GROUND
& LONG BUSY DAYS HARVESTING IN EXTREME CONDITIONS**

The Brouwer 1576 is the most popular Model of Harvester in the World and gained its reputation with an excellent quality of cut in a wide variety of conditions. The Floating Cutting Head has a front and rear pivot point that is close to the ground following the smallest of undulations giving it excellent floatation while cutting both rolls or slabs. The Heavy Duty Outer Frame houses the compact Cutting Head providing significant weight to the roller helping to produce an even piece of Turf, even in extreme conditions; especially hard clay and stones. The high torque motors are designed to cut through the hardest of conditions.

FEATURES:

- Harvest 16", 18", or 24" widths in 18" to 100" lengths
- Exclusive Brouwer gentle low-profile rubber mat with polyethylene sliders
- Independently mounted Curved or Cross Conveyors
- No waste: cuts close to pipes, fences and ditches
- Quick, easy cut-off spring tension adjustment
- Conveyor front weight bar, standard
- Independent floating cutting head
- Works well in all soil conditions
- Hydraulic flap control (Roll)

OPTIONAL:

- Brush attachment keeps turf free of debris and clippings
- Optional 4 wheel drive
