

FIVE GANG VERTICAL MOWER

VERTICUT

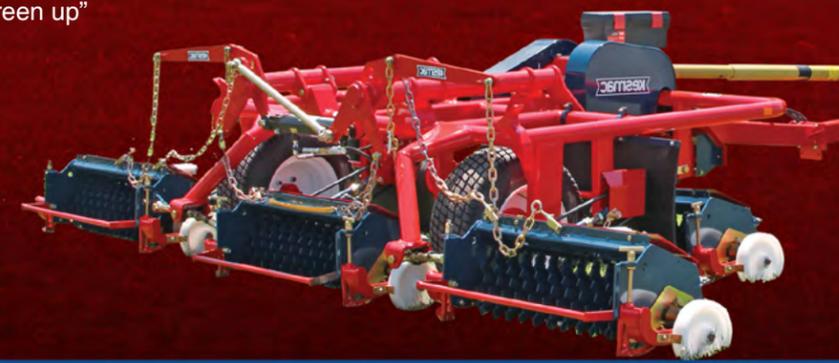

**BROUWER
kesmac**

**PERFECT SOLUTION TO YOUR THATCH PROBLEMS
AND INCREASED AERATION AND WATER PENETRATION.**

The Kesmac VERTICUT five gang vertical mower is based on the proven Kesmac reel mower design. The vertical mowers are precision built with quality materials to ensure a long trouble free working life, backed by after sales service that is second to none. These mowers control thatch build-up, help prevent diseases, allow increased aeration, water penetration, and more effective utilization of fertilizer. This vertical mower is a valuable tool for golf courses, parks, recreations areas, turf maintenance and sod producers. Thatch removal adds the benefit of up to two weeks earlier "spring green up" at the start of the season.

- More effective utilization of fertilizer
- Allows increased aeration
- Removes thatch build up
- Better water penetration
- Helps prevent disease
- Transportable
